MEMORANDUM FOR: CIA SIGINT Officer

1. The Director talked to Mr. McGeorge Bundy about NSAM [ ] and received authority from Mr. Bundy to work out whatever details were necessary to protect intelligence sources and methods directly with the Secretary of the Navy and the Secretary of the Treasury for the Coast Guard. No amendments will be made to NSAM [ ] but we are authorized to establish operating procedures not in direct conformance with the NSAM.

2. It seems to me that the best procedure would be to lean over backwards in any search procedures developed for suspect vessels. I would be prepared to accept simple boarding, reading of the log, and escorting the vessel outside U. S. territorial waters with instructions not to return. In this way there would be no opportunity to uncover any sensitive communications equipment and at the same time we would not create suspicion by searching the entire vessel and patently avoiding the communications setup.

3. If the foregoing makes sense, please take appropriate action with Admiral Taylor and see that necessary instructions are issued. Please also inform General Davis of NSA.

4. I would appreciate a brief report of actions taken when completed.
